

Name: Amelia Smit

Position & Affiliation: Research Fellow; The Daffodil Centre, The University of Sydney, a joint venture with Cancer Council NSW

Full Reference: **Amelia K Smit**, David Espinoza, Georgina Fenton, Sharne Limb, Jess Innes, Michael McGovern, Judy Kirk, Erin Turbitt, Anne E Cust. *Communicating Melanoma Polygenic Risk Information: Genetic Counselling Experiences In A Community-based Study*. Poster Presentation. NSW Cancer Conference 2022.

Presentation Type: Poster

- **How do you anticipate that the experience of presenting at the NSW Cancer Conference will benefit your research or professional development?**

This was the first major conference that I attended in-person since the start of the COVID-19 pandemic. It provided a really valuable and important opportunity for me to re-connect with my colleagues in cancer research across the translational research spectrum.

- **Conference highlight(s) for you personally.**

In the “Survivorship and psycho-oncology” stream on Day 2, there were several consumer focussed presentations that were very inspiring and motivating.

- **Key messages.**

Some key messages for me were around the importance of involving consumers in cancer research from inception to implementation and engaging with multidisciplinary teams in designing and conducting research studies.
