

NSW Cancer Conference 2022 Conference Report

Name: Nicci Bartley

Position & Affiliation: Post-doctoral Research Associate, Psycho-oncology Cooperative Research Group, School of Psychology, The University of Sydney

Full Reference:

1. **Bartley N**, Kirsten L, Wilson C, Sajish B, Cooper C, Shaw J. *Developing a person-centred bereavement care service for health professionals working with diverse communities.*
2. **Bartley N**, Cooper C, Beatty L, Kirsten L, McGrath D, Walker-Charles M, Shepherd H, Turner J, Kelly B, Shaw J. *Upskilling community-based psychologists to deliver cancer -specific anxiety and depression treatment.*

Presentation Type: Posters

- **How do you anticipate that the experience of presenting at the NSW Cancer Conference will benefit your research or professional development?**

The NSW Cancer Conference is an important local conference. This conference gave me the opportunity to discuss my current research with a diverse audience. Attending the conference also gave me the opportunity to gain exposure to current research across the cancer continuum. Attending this face to face conference provided an excellent opportunity to network in person, establish new connections and catch up with colleagues.

- **Conference highlight(s) for you personally.**

Highlights for me were:

- Professor Jacob George's plenary on his HCC program of research was really interesting and was nice to see a comprehensive translational presentation.
- The quality of the presentations in the Survivorship and psycho-oncology stream were excellent.
- The Social Justice panel discussion included a nice range of perspectives/expertise and was a thought-provoking conversation.

- **Key messages.**

The key take home for me was to think about how to be more inclusive of diverse populations in research to ensure that there is equity in health care provision.
